THURSDAY, June 10-P. M. There was a more active market in fancies to-day, with generally a firm feeling. Canton was an exception, and under sales of 1,500 shares, went to 78, a decline of two P cent. The free selling of a leading outside operator was the occasion of the decline .-At the Second Board, however, there was a reaction, new buyers came in, and the market recovered to 80, which was the closing price yesterday. Erie, Reading, Harlem, &c., were all firm. At the Second Board the feeling was very buoyant in all the speculative kinds of stocks, with some eagerness to buy. Reading, with sales of 800 shares, jumped to 80%, an improvement of $1\frac{1}{4}$ \tilde{q}^{μ} cent. on yesterday's price. Eric touched 87, an advance of 14 P cent. Zinc was firm at 121/2. Harlem 721/8, which is 16 4 cent. better. Stonington was in demand at % P cent. advance, closing at 5314. It is understood the May receipts on this road show a gain over last year. Norwich was 541/8, &c. The appearance of the market at the Second Board was more like the long

of money, than anything we have seen for some time. Railroad Bonds are well sustained. Eric Convertifair demand. All the desirable Railroad Bonds are selling at very full prices. Sound Railroad shares are also in demand, and very firm. A sale of 500 shares Mich. igan Central was moderate at 104¼, a further advance of 14 \$\display cent. Michigan Southern is 124@125, Nothern Indiana 118, Utica and Schenectady 135, Syracuse and Utica 150, Rochester and Syracuse 119, Albany and Schenectady 109 2/110, Madison 109 2/110, New-Haven 111%, Harlem Preferred 113@114, &c.

looked for inflation to follow the present accumulation

Government and State Stocks are advancing, with a good demand. Indiana 5s are in demand at 99, and Canal Preferred sold at 48. A sale of Missouri 6s was made at 10616. Resales of the Jersey City six P cent. Stocks taken yesterday, have been made at 45 cent., and the same price has been obtained for the New-York 50, due in 1890, taken on Tuesday.

In Sterling there is not much doing yet, but the market is firm at 10@1014 P cent. The supply of bills is moderate, with but few Southern names on the market. The quotation at New-Orleans is 9% 2010% **P** cent. Francs are 5,16 1/4 ⊕ 5,15,

For Liverpool freights the market is very firm but not active. Engagements 2,000 or 3,000 bbis Flour 13d@14d.; 500 or 600 bales Cotton 5-32@3-16d Some parcels of Grain were shipped on private terms The asking prices are 44 @442d. A British ship took 1,500 bbls. Resin at 10d. To London 600 bbls. Flour were taken at 18d. Naval Stores 2/. Dead Weight 20/ #30s. To Hamburg 1,000 bbls. Resin 1/. To Havre the market is dull at %c. for Cotton, \$5 for Ashes, \$7 for Bark. To California there is fair business doing. The Defiance is full within 500 bbls.

In Money there is no change to note. The range is 3@5 \$\psi\$ cent. on call and 4@5 \$\psi\$ cent. on strictly first-class paper.

The steamer on Saturday will take a considerable amount of gold, probably exceeding half

The election of Directors for the Albany and Schenetady Railroad took place on Wednesday, and the following gentlemen were elected: Messrs. E. C. Melntoeb, G. Y. Lansing, Lyman Chapin, H. Ruppelly, Augustus James, Friend Humphrey, John F. Winslow, R. H. Winslow, and Thos. Tileston. The traffic of the Road continues to be large,

Increase...... \$3,123 82 In the first week of June the first-class passengers were 7,367, against 6,574 in the same week last year The estimate for Jane is about \$25,000 against \$20,000 Increase in two years \$28,743 The above receipts on a road only 17 miles in length

are almost, if not quite, unprecedented. Bids for \$350,000 of Convertible 7 per cent. Mortgage Bonds of the Evansville and Illinois Railroad Company will be received until 19th June at the office of Messrs. Cammann, Whitehouse & Co. This the Ohio River, to Vircennes, 51 miles, where it con nects with the Ohio and Mississippi Railroad. About one half of this distance is completed and being worked, earning, according to the statement of the Company, more than enough to pay the interest on the Bonds to be issued. The remainder, 231/2 miles, will be finished during the spring. The Stock subscriptions reach \$345,300, and the entire cost of the Road is estimated at about \$650,000. The Road, ready for the equipage, costs about \$10,500 P mile. The Directors say :

Evansville is the dépôt of the Southern trade of the Wabash Valley and of Green River, Kentucky. It is the most rapidly growing city in Indiana, and now contains 7,000 inhabitants. The population has doubled, and the taxable property trebled, in six years. The arrivals and departures of steamboats at its wharf in 1851 were 5,388. The Wabash is the most fertile of all the Western vallies, and produce a more corn and hogs than the same area in any other section of the country. It is also marked out by nature as a great route of travel.

At the meeting of the Erie Board vesterdey, the usual Committee on Dividend was appointed. There is some disposition, we hear, to make a stock dividend, the earnings of the road having been used in the construction account. We should doubt the policy of such a course, and believe at any rate that the Stock would suffer less in the street should the dividend be entirely passed, if shown to be earned, than if made in Stock. The earnings of the read up to June

took out \$157,000 in Amercan gold. It will be seen by an advertisement in snother column that the Farmers Trust Company have resumed active business, their capital being full and standing at a premium on the books, under a fair esti-

The Cincinnati Gazette says, in relation to the protested draft on the State Treasurer:

"Is it true, as we stated on rumor a day or two since, that payment of a draft on the State Treasurer, to meet the State Interest in July, has been refused, not because the Treasurer is unwilling to take the responsibility of paying the interest, trusting to the General Assembly to make it good, but because the draft was not in conformity to law. We learn that the Fund Commissioners have appointed Dr. Trevitt, one of their own body, as transfer agent in New-York. He is to hold that place, which will require constant attention in New-York, and also the effice of Secretary of State, which requires his regular attendance at Columbus. How he will contrive to discharge the duties of both offices, in Columbus and New-York, at one and the same time, surpasses our comprehension."

In reply, I have the pleasure to inform you, that from the liberal subscriptions made by the City of the control of the Allegan and the control of the City of t that from the liberal subscriptions made by the City of Pittsburgh, and our citizens, the prosecution of the Allegany Valley Raifroad is placed beyond all doubt. Our Engineer Corps (three in number) are now engaged in the examination of this end of the route. In a few days, two of said corps will be placed on the Northern portions of the work. Our examinations will be directed in reference to the best connections with the New-York improvements. I am unable, at present, to promise an examination of any particular route. I can, however, state that it it is the desire, as well as the determination of our Board, to adopt the best location that the country will silord, for the great work placed under their charge. Our terminus on the New-York improvements will be at such point (Rochester or elsewhere) as may be most conducive to the interests of the Company and the public.
